Server A   Server B

PSTN

IP Phones

Xorcom offers a range of IP phones to meet different requirements.

PBX Appliances

Xorcom CompletePBX appliance line offers fully integrated phone systems for any size business.

CompletePBX appliances provide an off-the-shelf solution for organizations that want to run an on-premise phone system, integrate with existing systems and connecting Astribank gateways.

Telephony Interfaces

Xorcom Astribank USB gateways are a secure and integrated way to connect all traditional telephony ports to hybrid systems, including analog and digital lines and ports.

Small Office PBX

Xorcom small office phone systems come with a full enterprise-grade features set, for a price any small business can afford. It is also optimal for small branches and multi-site projects.
